

Data Modelling and Form Design

Aim

To design and develop a **Gym Membership Application Form** using Zoho Creator by creating a structured form, applying appropriate validations, and generating a report for managing member registrations and subscriptions.

Theory

Data modelling and form design involve organizing data into suitable fields and sections for efficient collection and management. In Zoho Creator, forms can be created using different field types such as Name, Email, Address, Phone, Single Line, Multi Line, Number, Date, Time, Drop Down, Radio, Multi Select, and Checkbox.

In this experiment, a **Gym_Membership_Form** is designed to collect member details, contact information, health and fitness goals, membership tier preferences, and terms & conditions consent. The form is divided into four sections:

1. **Personal Details:** Member Name, Date of Birth, Gender, and ID/PAN Number.
2. **Contact Details:** Email Address, Phone Number, and Residential Address.
3. **Fitness & Health Profile:** Emergency Contact Details, Fitness Goals, and Existing Medical Conditions/Injuries.
4. **Membership Details & Consent:** Membership Plan Type (e.g., Monthly, Quarterly, Annual), Preferred Time Slot, Start Date, and Terms & Rules Consent.

Procedure

1. Open **Zoho Creator** and create the **Gym Membership Management** application.
2. Create the **Gym_Membership_Form**.
3. Add the required fields for personal, contact, health, membership plan, and consent details.
4. Organize the fields into the four specified sections (Personal Details, Contact Details, Health & Fitness Profile, and Membership Details & Consent).
5. Configure mandatory fields and apply the required validation rules (e.g., minimum age limit, mandatory agreement checkbox).

6. Save and preview the form.
7. Enter sample member details and submit the form.
8. Create the Gym_Membership and verify the submitted records.
9. Filter and sort the records based on membership type (e.g., Monthly/Annual) and start date for effective subscription management.

Output

The screenshot shows the 'Gym Membership' form in the Zoho Creator app. The form is divided into four sections: Section A - Member Details, Section B - Contact Details, Section C - Membership & Fitness Preferences, and Section D - Scheduling & Health Declaration. The form is currently in the 'Form' view, showing input fields for member details, contact information, and preferences.

Section A - Member Details

- Member Name: First Name, Last Name
- Age: [Text Field]
- Membership Type: ☐ New Member, ☐ Renewal, ☐ Corporate Enrollment

Section B - Contact Details

- Email Address: [Text Field]
- Contact Number: [Text Field]
- Residential Address: Address Line 1, Address Line 2, City / District, State / Province, Postal Code, Country
- Emergency Contact Name: [Text Field]

Section C - Membership & Fitness Preferences

- Membership Plan: [Dropdown]
- Preferred Activities: [Dropdown]
- Fitness Goals: [Text Field]

Section D - Scheduling & Health Declaration

- Preferred Start Date: [Text Field]
- Preferred Workout Slot: [Text Field]

The screenshot shows the 'Gym Membership' report in the Zoho Creator app. The report is titled 'Section A - Member Details Report' and displays a table of member details. The table has columns for Member Name, Age, Membership Type, Email Address, Contact Number, Residential Address, and Emergency Contact Name. The data is filtered to show only 'New Member' records.

Member Name	Age	Membership Type	Email Address	Contact Number	Residential Address	Emergency Contact Name
Lalith Charan P	19	New Member	lalithcharan234@gmail.com	+918778851716	NO 12, Times Square, New York, Las Angeles, 700012, United States	987654322

Result

The **Gym Membership Application Form** was successfully created in Zoho Creator with a structured data model, appropriate field validations, and organized sections. The submitted member applications were successfully stored and displayed in the Gym_Membership for effective onboarding and membership tracking.
